WEAVER'S ROSES

For 1940

BETTER THAN EVER

Our Roses, on removal from growing fields are placed immediately into our Rose Cellar where the air is moist and temperature 35 to 40 degrees with roots covered in damp moss. What a difference from over the counter store roses. We'll admit the counter stock looks swell in the fancy colored cartons — but why hide a good rose in this way unless it's a second grade, immature bush, and needs hiding? The dry air in the usual 70 degree steam heated store, will dry out and kill any Rose or Shrub unless kept in a bucket of water — No wonder these cheap roses seldom grow — There's a reason.

We pride ourselves on the many good varieties grown which include most popular and proven newer kinds.

Shippers add 5c each for packing or 15 each, 35 per 6, 50c for 12 if wanted delivered prepaid as our Roses are strong heavy bushes.

OUR HEAVY 2 and 3 year No. 1, and extra grade Kansas and Oregon grown are the World's best for Wichita Planting. They live and bloom abundantly.

PRICE: On Our Best Oregon Supreme Roses — Heavy 2 and 3 year strictly No. 1 and extra grade bushes, all varieties, each, 50c; 6, \$2.50; 12, \$5; 100, \$40.

Planted in your garden in Wichita and within a radius of 50 miles and guaranteed to live, grow and bloom abundantly. Only \$7.00 per dozen, any assortment of varieties.
